

Quick-Step Hydrostrip for Scotia

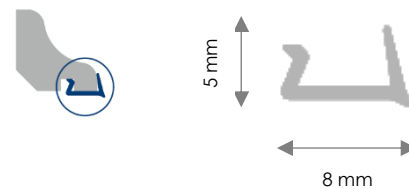

NEHSTRIPSCOT15

Laminate

Vinyl

Parquet

Order Quantity

Per piece of 15 meters

Dimensions

15000 x 8 x 5 mm

Contents:

One piece exists of 1 Hydrostrip, rolled up in an individual cardboard box.

Product Description:

Flexible PVC profile to be clipped on the bottom of the skirting, resulting in a clean-looking, water resistant finish of your skirting board.

Installation:

The Hydrostrip is part of a water-resistant floor finishing system.

1. Use the Quick-Step Foamstrip and Hydrokit to seal your floor. Installation details can be found in the technical data sheet of the Foamstrip.
2. Clip the Hydrostrip onto the skirting boards to protect them against water.

Hint:

- ✓ Clip one piece of hydrostrip per individual skirting. If the skirting needs to be sawn, like e.g. in a corner, the hydrostrip can be sawn at the same moment.
