Why use Moduleo maintenance products?

- 1 Cleaning your floor with Moduleo maintenance products is easy and efficient.
- 2 Protect your floor's beautiful original character. With Moduleo maintenance products you avoid build-up: dirt and unhygienic residues are removed at a glance.
- 3 You safeguard your floor's guarantee by using Moduleo maintenance products!
- 4 The products are specifically developed for and tested on Moduleo floors, so you can be sure you are giving your floor the right maintenance.

- ✓ Biodegradable product
 - ✓ Produced in a carbon neutral factory
 - ✓ Recyclable bottle made from 100% recycled plastic*
- * except for the cap and the labels

On the planet's side.
In it for the long run.

Moduleo has a sealed surface which means bacteria cannot accumulate in the floor surface. This makes it very hygienic and easy to clean!

Spot Cleaner250 ML
MODSPOTCLEAN

- ✓ Eliminates tough stains
- ✓ Gentle for your floor
- ✓ Biodegradable formula
- ✓ Developed for all Moduleo floors

Moduleo cleaning products are available at your local dealer.

The first clean after installation

When you buy a Moduleo floor, everything has been taken care of. No extra finishing layers or protection required. Did you choose a floating installation? Then you're already good to go! If you chose a glued-down installation, make sure you let the glue fully dry according to the curing time mentioned in the instructions.

However, once you've finished the installation, you might want to get rid of the dust and enjoy your brand-new floor in all its glory.

The first thorough cleaning after installing your floor or Stair Covers

1. Remove all coarse dirt with a soft broom and a dustpan.
2. Vacuum your floor thoroughly, make sure your vacuum Cleaner is equipped with soft wheels and a special parquet brush.
3. Get rid of any stubborn dirt as indicated in the dirt removal guide on page 8.
4. Fill a bucket of 10L with water and 6 capfuls of Moduleo Floor Cleaner. Wipe the floor with a slightly damp microfibre cloth, which has been dipped in this solution. Regularly rinse and wring out, avoid using excessive water.
5. Fill a bucket with clean water for rinsing out your mop. Rinse the microfibre cloth and wring it out well. Then wipe your floor again until it's entirely dry.
6. Start enjoying your brand new floor.

The cleaning journey

Weekly cleaning: dry

For regular maintenance, we recommend using a vacuum Cleaner once per week. Make sure your vacuum Cleaner is equipped with soft wheels and a special parquet brush.

Monthly cleaning: slightly damp

Once or twice per month, depending on how often the floor is used and how dirty it gets, we advise a cleaning session with a slightly damp microfibre mop. Be careful not to use too much water: it is unnecessary and could damage your floor.

1. **Vacuum or mop your floor thoroughly** to make sure you got rid of all the dust. Make sure your vacuum Cleaner is equipped with soft wheels and a special parquet brush.
2. **Residential cleaning:** Fill a bucket of 10L with water and 2 capfuls of Moduleo Floor Cleaner. Wipe the floor with a slightly damp microfibre cloth, which has been dipped in this solution. Regularly rinse and wring out, avoid using excessive water.

Intensive cleaning of persistent dirty floors:

Fill a bucket of 10L with water and 6 capfuls of Moduleo Floor Cleaner. Wipe the floor with a slightly damp microfibre cloth, which has been dipped in this solution. Regularly rinse and wring out, avoid using excessive water.

3. **Fill a bucket with clean water** for rinsing out your mop. Rinse the microfibre cloth and wring it out well. Then wipe your floor again until it's entirely dry.

Cleaning machine

A single disc cleaner or a scrubber-dryer machine can be used for all Moduleo floors. The recommended cleaning machine must be a low speed, small and compact machine aimed for light daily cleaning. It should weigh less than 50 kg, so medium, large or ride-on machines are not recommended.

Checks before you start

- ✓ High pressure cleaners should be avoided.
- ✓ Use a soft fibre brush or a white/red pad with a pressure between 15 and 30 kg.
- ✓ The water temperature can be maximum 45°C and may not be applied under pressure.
- ✓ Make sure to use single disc cleaners at low speed to avoid polishing.
- ✓ After cleaning, all moisture needs to be wiped off the floor with a dry mop or a wet vacuum cleaner.
- ✓ Scrubbing or stripping machines are not allowed, as your Moduleo vinyl floor should not be polished or waxed.

Moduleo's persistent dirt removal guide

Muddy footprints, a spill or a nasty cut, sometimes life happens and your vinyl floor gets the marks to prove it. But don't panic: you can usually fix it! However, different types of stains require a different approach. That's why we've compiled this handy guide for you. For every stain, keep in mind to not rub too hard on one spot.

How to use the Spot Cleaner

Spray the Spot Cleaner directly on the stain and leave to soak for up to a maximum of 5 minutes and rub firmly with a clean cloth* to remove the stain. For floors with deep structures, use a soft brush. Repeat the process if necessary.

* We advise to use a white cotton cloth.

Type of dirt	How to remove stains?
Local staining	Apply Moduleo Spot Cleaner to the stain.
Chocolate, ketchup, mustard, fruit juice, drinks, wine	Remove stains as fast as possible with a moist cloth*. Use Moduleo Floor Cleaner thinned in lukewarm water (3 teaspoons per 300 ml water).
Grease, frying oil	If the stain has hardened: gently scrape off. Then apply Moduleo Spot Cleaner to the stain.
Rubber marks	Apply Moduleo Spot Cleaner to the marks.
Bodily fluids (blood, urine ...)	Remove with a moist cloth* as fast as possible. Then apply Moduleo Spot Cleaner to the stain.
Nail polish, shoe polish, lipstick, tar, etc.	Apply Moduleo Spot Cleaner to the stain.
Permanent marker, paint, ...	Apply Moduleo Spot Cleaner to the stain.
Candle wax	Leave to harden, then gently scrape off.
Chewing gum	Gently scrape off. Then apply Moduleo Spot Cleaner to the stain.
Dull-looking floor	Use Moduleo Floor Cleaner as described on page 6. (intensive cleaning)
Greasy residue	Use Moduleo Floor Cleaner as described on page 6. (intensive cleaning)

Tips & tricks

1. **Sand, stones, furniture ... there are a lot of ways to scratch your floor.**
Make sure you take some precautionary measures: **lift your furniture** instead of dragging it, **place felt pads** under them, use office chairs with soft wheels and a suitable desk mat, make sure your vacuum Cleaner is equipped with soft wheels and a special parquet brush.
2. **Install a doormat** in rooms that are accessed from outdoors, to minimize cleaning and to protect your floor. Make sure the mat is large enough and is cleaned regularly.
3. **We advise you to choose products that are recommended** by Moduleo: they are designed to be **perfectly compatible with our Moduleo vinyl floors.**
4. **Always follow the instructions** on your maintenance products. Using too much cleaning product can lead to a greasy residue on top of your floor.
5. **Do not use impregnated disposable cloths.** These often contain oily products that attract dust and may stain your floor.
6. **Never use natural soap detergents.** They will leave a sticky film on the surface which will collect dust and dirt that will be difficult to remove. The same for cleaning agents containing abrasive particles, these can matt down the surface of your floor.
7. **Mop your planks or tiles lengthwise** to avoid drying streaks.

The use of accessories other than genuine Moduleo accessories can damage your Moduleo floor. In this case, the warranty offered by Moduleo will no longer be valid. We therefore advise you to only use Moduleo accessories as these have been especially designed and tested for the use with Moduleo floors.
